Brewster Cupid | Internal Recruiter | Public Consulting Group LLC

Dear Mr. Cupid,

I am writing to express my enthusiastic interest in the Lead Project Manager position at Public Consulting Group (PCG). As a seasoned Agile practitioner with over 15 years of experience driving digital transformation and project management, I am confident in my ability to lead and deliver complex initiatives within the dynamic education sector.

My passion for education stems from my time at the University of Texas at Dallas, where I not only honed my technical skills but also contributed to the university's web presence as a Senior Web Developer. This experience instilled in me a deep appreciation for the unique challenges and complexities faced by educational institutions, particularly in navigating the intricate landscape of state and federal regulations.

Throughout my career, I have consistently delivered exceptional results in fast-paced, high-stakes environments, leveraging my expertise in Agile methodologies and project management to streamline processes, optimize resource allocation, and ensure timely delivery of critical projects. My recent experience at AT&T as a Senior Project Program Manager for Digital Transformation and Artificial Intelligence further exemplifies my ability to navigate complex projects, manage cross-functional teams, and leverage cutting-edge technologies to drive innovation and efficiency.

I am particularly drawn to PCG's commitment to improving lives through innovative solutions in the public sector. My experience working with the Dallas Independent School District allowed me to witness firsthand the transformative power of technology in enhancing educational outcomes and empowering students and families. I am eager to apply my skills and passion to PCG's mission of driving positive change in the education sector.

I am confident that my proven track record of success, coupled with my deep understanding of the education landscape, makes me an ideal candidate for this position. I am particularly excited about the opportunity to collaborate with PCG's talented team of professionals to develop and implement innovative solutions that will have a lasting impact on students, educators, and communities.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further.

Sincerely,  
Rich Williams, MBA
